

## 8 halls for the entire spectrum of sanitation, heating, air conditioning and renewable energies:

### Hall 3

- Workshop facilities, tools, transporters
- Plumbing technology

### Hall 3A 4A

- Renewable energies
- Heating technology
  - Burner technology
  - Heating boilers
  - Solar thermal power
  - Photovoltaic
  - Storage
  - Heating pumps

### Hall 4

- Renewable energies
- Heating technology
  - Storage
  - Heating boilers
  - Biomass
  - Fireplaces and tiled stoves
  - Heating pumps
  - Chimney technology

### Hall 5

- Air conditioning and ventilation technology
- Pumps
- Test, measuring and control equipment
- Water treatment

### Hall 6

- Panel heating systems
- Fittings
- Radiators
- Test, measuring and control equipment

### Hall 7 7A

- Sanitation technology
- Pipes and accessories
- IT, office equipment
