

BRINGING EXPERTS TOGETHER.
AND PROMOTING PERSONAL GROWTH.

THE NETWORK FOR YOUR SUCCESS

21.–24.04.2020

THE TRADE FAIR FOR SANITATION,
HOME AND BUILDING TECHNOLOGY

MEET THE ENTIRE GERMAN-LANGUAGE INDUSTRY.

Networking is the centre of IFH/Intherm 2020:

Business contacts, information and products form the perfect symbiosis for reaching their full potential. Even now, heating, air-conditioning, and renewable energies are connected in a network. This networking also characterises the new title of IFH/Intherm as the **trade fair for sanitation, home and building technology.**

Use the **most important trade fair of the German HVAC and sanitation in 2020** as a networking hub and make valuable business contacts **on the German market.**

For the first time, **wholesalers will exhibit** as well—a new opportunity for you. Actively engage in conversations with German wholesalers and present your latest innovations and products.

Meet experts and decision-makers from the trades, industry, and wholesale. Use the trade fair to enter into discussions with

specialist planners, architects, and decision-makers from the housing industry to **position your brand on the German market.**

Become an exhibitor at IFH/Intherm 2020 and set a course for a successful future doing business in the DACH region.

We are looking forward to welcoming you,
The IFH/Intherm Project Team

THE FIGURES FROM 2018 ILLUSTRATE ITS SUCCESS.

OUR EXHIBITORS:
FROM ALL OVER THE WORLD.

OF THEM COME FROM ABROAD

OUR VISITORS:
FROM ALL INDUSTRIES.
